SynStrands Gene Fragments

Starting From \$0.09/bp*

No Sequence Restriction

Subcloning With Your Own Vector

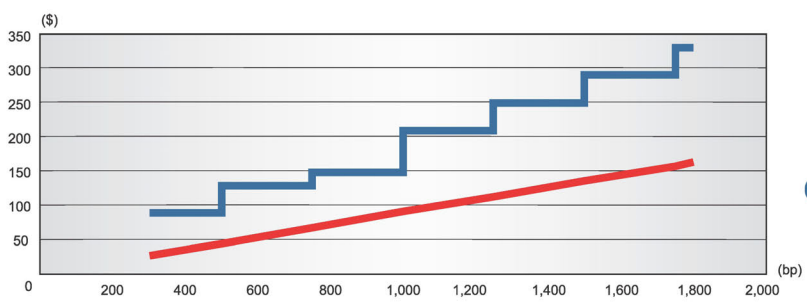

* Plus 15% off your first order.

* Size range: 0.3-1.8 kb. (\$0.11/bp for 1.8-3.2 kb) Complex sequence please quote

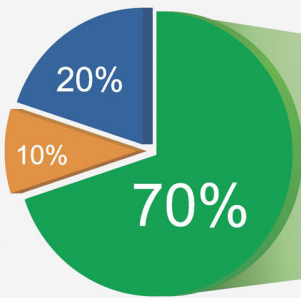

Synbio Technologies provides our customers with double-stranded, sequence-verified SynStrands Gene Fragments in 8-10 business days. With excellent sequence fidelity and affordability, SynStrands can be used for applications in gene construction, protein engineering, qPCR controls, CRISPR-based genome editing, etc.

SAVE as MUCH as \$160 per fragment!

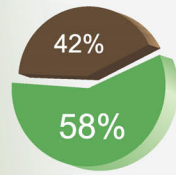

SAME price/bp

Our Price VS Company I Price

Company I complexity test

Only 70% x 42% = 29.4% of the total sequences can be synthesized by Company I
